News release:

Hat trick of appointments at SIG Design & Technology for IKO Armourplan

A hat trick of appointments at SIG Design & Technology confirms the company's confidence in its new PVC single ply membrane, IKO Armourplan.

Dave Schofield is the Armourplan Category Manager. Over the past three months Dave has taken responsibility for the seamless introduction of the new brand to the SIG Design & Technology portfolio, managing the transfer of the distribution of the only UK produced PVC single ply roofing membrane in the UK.

Dave has a wealth of operational, management and supply chain experience gained from within the merchanting sector as a Regional Director of Keyline Builders Merchants and more latterly as the Director of Plasterboard Direct, the Eternit plasterboard business based in Antwerp and Hertfordshire.

Two other new faces at SIG Design & Technology's Shepshed Head Office provide a complete range of Armourplan services.

L-R: Harj Chana, Dave Schofield, Sam Holt.

Sam Holt has joined the sales office from Hanson where she has spent a successful five years dealing with the distribution of aggregates and asphalt to contractors, merchants and specialist distributors. She brings an abundance of experience, a high level of customer service and much valued expertise at the sharp end of the business.

In the technical office, Harj Chana is a welcome addition to the specification team. Recently married and a graduate in Architectural Technology from Sheffield Hallam University, Harj brings a wide range of experience to the role. With significant experience of AutoCAD and wind uplift calculations, his methodical approach is key to the complex workday challenges involved in specification.

Mike Crook, Trading Director at SIG Design & Technology said, 'Our streamlined design and supply service for the IKO Armourplan range means we can offer the contractor an excellent product that is simple to install, at a great price with guarantees of up to 20 years.'

'With our plans for further growth, it is likely that there will be further additions to the team next year.'
